

CURRICULUM VITAE

María Guadalupe Sánchez Loredo

Instituto de Metalurgia, Universidad Autónoma de San Luis Potosí,
Sierra Leona 550, Lomas 2^a. Sección, 78210 San Luis Potosí, México
Tel./Fax: (52-444)825-43-26 ext. 110
e-mail: msanchez@uaslp.mx

1983 - 1987	Universidad Autónoma de San Luis Potosí, Mexico (Chemistry), Examination
1988 – 1990	Instituto Politécnico Nacional, Mexico MSc. (Extractive Metallurgy)
1990 – 1991	Kyoto University, Japan Research student (Solvent Extraction)
1991 – 1992	Industrial Minera México, San Luis Potosí, Subdirección de Desarrollo Metalúrgico, researcher (hydrometallurgy)
1993 - 1996	Universität GH Paderborn, Germany Graduation Dr. rer nat. (Ph.D), Applied Chemistry (supervision: Prof. Grote)
1997	appointed Permanent Lecturer, Instituto de Metalurgia, Universidad Autónoma de San Luis Potosí, Mexico
1999	Universität GH Paderborn, Germany Short Postdoctoral Stay
2006-2007	Sabbatical leave (Technische Universität Dresden)

(2000-) Proceedings and technical papers

Carboxyl-substituted derivatives of S-decyl dithizone as solvent extractants for precious metal ions, M.G. Sanchez-Loredo, M. Grote, Solvent Extraction and Ion Exchange, 18(1), 2000, 55-76.

Solvent extraction and hydrochemical preparation of gold powders with dithizone derivatives, M.G. Sánchez-Loredo, M. Grote, International Solvent Extraction Conference 2002, ISEC 2002, ed. by K.C. Sole, P.M. Cole, J.S. Preston, D.J. Robinson, South African Institute of Mining and Metallurgy, Johannesburg, 2002, 934-939.

Preparation of Gold Powders by means of Redox-active Extracting Systems, M.G. Sánchez-Loredo, A. Robledo-Cabrera, M. Grote, Materials Chemistry and Physics, 76, 2002, 279-284.

Silica gel crystallization induced by silver crystalline aggregates, G. Ortega-Zarzosa, J.R. Martínez, A. Robledo-Cabrera, G.A. Martínez-Castañón, M.G. Sánchez-Loredo, F. Ruiz, *Journal of Sol-Gel Science and Technology* 27, 2003, 255-262.

Preparation of ultrafine silver particles by solvent extraction techniques, María Guadalupe Sánchez-Loredo, Marco Martín González Chávez, Julia López-Martínez *Hydrometallurgy 2003 - Fifth International Conference in Honor of Professor Ian Ritchie – Volume 1: Leaching and Solution Purification*, ed. by C.A. Young, A.M. Alfantazi, C.G. Anderson, D.B. Dreisinger, B. Harris and A. James, The Minerals, Metals and Materials Society, 2003, 891-904.

Síntesis y caracterización de nanopartículas de sulfuro de plata, Gabriel Alejandro Martínez Castañón, María Guadalupe Sánchez Loredo, Octavio Domínguez Espinós, Facundo Ruiz, Gerardo Ortega Zarzosa, José Refugio Martínez Mendoza, XXV Congreso Internacional de Metalurgia y Materiales, Saltillo, Coahuila, 2003, 312-320.

Two-phase systems involving commercial organophosphorous extractants for the preparation of silver and silver sulphide nanoparticles, M.G. Sánchez-Loredo, R. Tovar-Tovar, F. Ruiz, J.R. Martínez-Mendoza, G. Ortega-Zarzosa, G.A. Martínez-Castañón *International Solvent Extraction Conference 2005, ISEC 2005*, ed. by China Academic Journal (CD) Electronic Publishing House, Beijing, China, 828-833

Characterization of silver sulfide nanoparticles synthesized by a simple precipitation method, G. A. Martínez-Castañón, M. G. Sánchez-Loredo, H.J. Dorantes, J. R. Martínez-Mendoza, G. Ortega-Zarzosa, F. Ruiz, *Materials Letters* 59(4), 2005, 529-534.

Optical absorption of Ag particles dispersed in a SiO₂ amorphous matrix, G. Martínez-Castañón, J. R. Martínez, G. Ortega Zarzosa, Facundo Ruiz, M. G. Sánchez-Loredo *Journal of Sol-Gel Science and Technology*, 36(2), 2005, 137-145

Structural study of silica xerogel composites containing Pd aggregates, Zarzosa, G.; Sánchez, S.; Martínez, J.; Ruiz, Facundo; Sánchez-Loredo, M., *Journal of Sol-Gel Science and Technology*, 35(1), 2005, 5-11.

Synthesis of CdS nanoparticles: a simple method in aqueous media, G. A. Martínez-Castañón, M. G. Sánchez-Loredo, J. R. Martínez-Mendoza, Facundo Ruiz, *Advances in Technology of Materials & Materials Processing Journal*, 7(2), 2005, 171-174

A Simple Theoretical Approach to Palladium Extraction with s-decyl Derivatives of Dithizone Using the Semiempirical PM3 Method, R. Jiménez Cataño, I. H. Salazar Gómez, M. G. Sánchez Loredo, *Hydrometallurgy*, 80, 2005, 203-210.

Stabilized metal and metal sulphide nanoparticles prepared by the two-phase liquid-liquid method, G. Sánchez-Loredo, R. Tovar-Tovar, J. Aguilera-Mares, F. Ruiz, G. Martínez-Castañón, *Proceedings of the International Solvent Extraction Conference 2008*, Bruce A. Moyer (Ed.), 1621-1626.

Polyamines as oxoanion and chlorocomplex receptors, M. G. Sánchez-Loredo, M. Wenzel, K. Gloe, K. Gloe, M. Grote, H.-J. Holdt, A. Kelling, *Proceedings of the International Solvent Extraction Conference 2008*, Bruce A. Moyer (Ed.), 1049-1055.

(2000-) Congresses

Synthesis of copper nanoparticles by chemical reduction in aqueous solution, Gabriel Martínez, Aurora Robledo, Luisa Flores-Vélez, Octavio Domínguez, Guadalupe Sánchez-Loredo, 221st American Chemical Society Meeting, Undergraduate Research Posters, April 2001, San Diego, Cal., USA.

Solvent extraction and hydrochemical preparation of gold powders with dithizone derivatives, M.G. Sánchez-Loredo, M. Grote, International Solvent Extraction Conference 2002, March 2002, Cape Town, South Africa

Preparation of ultrafine silver particles by solvent extraction techniques, María Guadalupe Sánchez-Loredo, Marco Martín González Chávez, Julia López-Martínez Fifth International Symposium on Hydrometallurgy, COM 2003, August 2003, Vancouver, Canada.

Síntesis y caracterización de nanopartículas de sulfuro de plata, Gabriel Alejandro Martínez Castañón, María Guadalupe Sánchez Loredo, Octavio Domínguez Espinós, Facundo Ruiz, Gerardo Ortega Zarzosa, José Refugio Martínez Mendoza, XXV Congreso Internacional de Metalurgia y Materiales, November 2003, Saltillo, Mexico.

Influence of stabilizing ligands in the synthesis of silver particles by aqueous reduction, Gabriel A. Martínez-Castañón, M. Guadalupe Sánchez-Loredo, Facundo Ruiz, J. Refugio Martínez-Mendoza, Gerardo Ortega-Zarzosa, XIII International Materials Research Congress, August 2004, Cancún, Mexico.

A two-phase system involving a commercial reagent for the preparation of silver nanoparticles: comparison with reduction from aqueous media in the presence of sulphur-containing stabilising ligands, María Guadalupe Sánchez Loredo, Gabriel Alejandro Martínez Castañón, Facundo Ruiz, Gerardo Ortega Zarzosa, José Refugio Martínez Mendoza, 4th International Conference on Inorganic Materials, September 2004, Antwerp, Belgium.

Synthesis of CdS nanoparticles: a simple method in aqueous media, G.A. Martínez-Castañón, M.G. Sánchez-Loredo, J.R. Martínez-Mendoza, F. Ruiz, 6th International Symposium on Hybridized Materials with Superfunctions, December 2004, Guanajuato, Mexico.

Application of solvent extraction involving commercial extractants for the preparation of zinc oxide nanoparticles, M.G. Sánchez-Loredo, J.M. Aguilera-Mares, G.A. Martínez-Castañón, Nanostructured Materials and Nanotechnology Symposium, XIV International Materials Research Congress, August 2005, Cancún, Mexico.

Synthesis of CdS nanoparticles: a simple method in aqueous media, G.A. Martínez-Castañón, M.G. Sánchez-Loredo, J.R. Martínez-Mendoza, F. Ruiz, Nanostructured Materials and Nanotechnology Symposium, XIV International Materials Research Congress, August 2005, Cancún, Mexico.

Two-phase systems involving commercial organophosphorous extractants for the preparation of silver and silver sulphide nanoparticles, M.G. Sánchez-Loredo, R. Tovar-Tovar, F. Ruiz, J.R. Martínez-Mendoza, G. Ortega-Zarzosa, G.A. Martínez-Castañón

International Solvent Extraction Conference 2005, ISEC 2005, September 2005, Beijing, China.

Simple two-phase systems involving commercial reagents for the preparation of cadmium and zinc sulphide nanoparticles, M.G. Sánchez, J.M. Aguilera, F. Ruiz, J.R. Martínez, G.A. Martínez, 5th International Conference on Inorganic Materials, September 2006, Ljubljana, Slovenia.

Tripodal polyamines as anion receptors: extraction and structural studies
M. Wenzel, B. Antonioli, K. Gloe, K. Gloe, M.G. Sánchez, G. Bernhard, D.J. Bray, J.K. Clegg, L.F. Lindoy, 2nd International Symposium on Macrocyclic and Supramolecular Chemistry, June 2007, Pavia, Italy.

Solvent extraction and crystallization-stripping: simple two-phase systems for the preparation of metal and semiconductor fine particles
M.G. Sánchez, J.M. Aguilera, R.L. Tovar, F. Ruiz, J.R. Martínez, G.A. Martínez, EUROMAT 2007, September 2007, Nuremberg, Germany.

Stabilized metal and metal sulphide nanoparticles prepared by the two-phase liquid-liquid method, G. Sánchez-Loredo, R. Tovar-Tovar, J. Aguilera-Mares, F. Ruiz, G. Martínez-Castañón, International Solvent Extraction Conference 2008, September 2008, Tucson, USA.

Polyamines as oxoanion and chlorocomplex receptors, M. G. Sánchez-Loredo, M. Wenzel, K. Gloe, K. Gloe, M. Grote, H.-J. Holdt, A. Kelling, International Solvent Extraction Conference 2008, September 2008, Tucson, USA.

A simple method for the preparation of polymer-nanoparticle composites for textiles, G. Sánchez, F. Ruiz, D. Cayuela, J. Antó, Sixth International Conference on Inorganic Materials, September 2008, Dresden, Germany.
